What is Notepad?

Notepad is a simple **Text Editor** software that comes with the **Microsoft Windows Operating System**. It is used for writing, editing, and saving plain text.

Definition

Notepad is an application software that helps users create simple text files, edit them, and save them on a computer.

नोटपैड (Notepad) का पूरा इंटरफेस और उसके भाग

नोटपैड के भाग और उनका उपयोग

क्रमांक	भाग का नाम	उपयोग
1.	Title Bar (शीर्षक पट्टी)	इसमें फाइल का नाम और Notepad का नाम दिखता है।
2.	Minimize Button (-)	इस बटन से विंडो को टास्कबार में छोटा (Minimize) किया जाता है।
3.	Maximize/Restore Button (□)	इस बटन से विंडो को बड़ा (Maximize) या पहले जैसा (Restore) किया जाता है।
4.	Close Button (X)	इस बटन से नोटपैड को बंद किया जाता है।
5.	Menu Bar (मेनू बार)	इसमें File, Edit, Format, View, Help मेनू होते हैं, जिनसे विभिन्न कमांड दिए जाते हैं।
6.	Text Area / Work Area (पाठ क्षेत्र)	इस क्षेत्र में हम टेक्स्ट लिखते हैं और इसे एडिट करते हैं।
7.	Vertical Scroll Bar (ऊर्ध्वाधर स्क्रॉल बार)	इसकी मदद से पेज को ऊपर-नीचे स्क्रॉल किया जाता है।
8.	Status Bar (स्थिति पट्टी)	इसमें लाइन नंबर, कॉलम नंबर, जूम %, टेक्स्ट फॉर्मेट (CRLF) और कैरेक्टर एनकोडिंग (UTF-8) जैसी जानकारी दिखती है।

नोटपैड के उपयोग

- ✓ टेक्स्ट लिखने के लिए
- ✓ नोट्स बनाने के लिए
- ✓ प्रोग्रामिंग कोड लिखने के लिए (HTML, CSS, JavaScript आदि)
- ✓ साधारण टेक्स्ट फाइल (.txt) बनाने के लिए
- ✓ महत्वपूर्ण जानकारी सेव करने के लिए

Features of Notepad

1. **Simple and Lightweight Software** – It requires very few system resources.
 2. **Text Writing Facility** – Users can write plain text.
 3. **File Saving Facility** – Written text can be saved.
 4. **File Opening Facility** – Previously saved files can be opened.
 5. **Cut, Copy, and Paste Features** – Text can be edited easily.
 6. **Programming Use** – It can also be used to create HTML, CSS, and JavaScript files.
-

Uses of Notepad

- Writing notes
 - Preparing simple documents
 - Writing programming code
 - Creating text (.txt) files
 - Storing important information safely
-

NOTEPAD – FILE MENU OPTIONS (ENGLISH)

No.	Option	Shortcut Key	Use
1	New	Ctrl + N	Creates a new blank file.
2	New Window	Ctrl + Shift + N	Opens another Notepad window.
3	Open	Ctrl + O	Opens an existing file.
4	Save	Ctrl + S	Saves the current file.
5	Save As	Ctrl + Shift + S	Saves the file with a new name or location.
6	Page Setup	No Shortcut	Sets margins, header, footer, and paper size.
7	Print	Ctrl + P	Prints the current document.
8	Exit	Alt + F4	Closes Notepad.

FILE MENU

The **File Menu** in Notepad contains all options related to creating, opening, saving, printing, and closing files.

New (Ctrl + N)

Use: Creates a new blank file.

Example: If you want to write a new note, use the New option.

New Window (Ctrl + Shift + N)

Use: Opens another Notepad window.

Example: Working on two different notes at the same time.

Open (Ctrl + O)

Use: Opens a previously saved file.

Example: Opening the file Notes.txt.

Save (Ctrl + S)

Use: Saves the current file.

Example: Saving the text you have written.

Save As (Ctrl + Shift + S)

Use: Saves the file with a new name or at a new location.

Example: Saving Notes.txt as Student Notes.txt.

Page Setup

Use: Sets page margins, header, footer, and paper size.

Example: Changing page settings before printing.

Print (Ctrl + P)

Use: Prints the file.

Example: Printing notes on paper.

Exit (Alt + F4)

Use: Closes Notepad.

Example: Closing Notepad after completing your work.

Edit Menu Options with Shortcut Keys

No.	Option	Shortcut Key	Use
1	Undo	Ctrl + Z	Reverses the last action.
2	Cut	Ctrl + X	Removes selected text and places it on the Clipboard.
3	Copy	Ctrl + C	Copies selected text to the Clipboard.
4	Paste	Ctrl + V	Inserts copied or cut text.
5	Delete	Delete	Removes selected text.
6	Find	Ctrl + F	Searches for a word or phrase.
7	Find Next	F3	Finds the next occurrence of the searched text.
8	Replace	Ctrl + H	Replaces one word or phrase with another.
9	Go To	Ctrl + G	Moves the cursor to a specific line number.
10	Select All	Ctrl + A	Selects the entire document.
11	Time/Date	F5	Inserts the current date and time.

EDIT MENU

The **Edit Menu** contains options related to editing text such as Cut, Copy, Paste, Find, Replace, and Undo. These options help modify text easily.

Undo (Ctrl + Z)

Use: Reverses the last action.

Example: Restoring a deleted word.

Cut (Ctrl + X)

Use: Removes selected text and places it on the Clipboard.

Example: Moving a paragraph from one place to another.

Copy (Ctrl + C)

Use: Creates a copy of selected text.

Example: Using the same information in multiple places.

Delete (Delete)

Use: Removes selected text.

Example: Deleting an incorrect word.

Find (Ctrl + F)

Use: Searches for a specific word or sentence.

Example: Finding the word "Computer" in 100 pages of notes.

Find Next (F3)

Use: Moves to the next occurrence of the searched word.

Example: Going to every occurrence of the word "Computer".

FORMAT MENU

The **Format Menu** is used to change the appearance and formatting of text. It mainly contains Word Wrap and Font options.

No.	Option	Shortcut Key	Use
1	Word Wrap	No Shortcut	Automatically moves long text to the next line.
2	Font	No Shortcut	Changes the font name, size, and style of text.

Word Wrap

Use: Automatically moves long lines of text to the next line without requiring a horizontal scroll bar.

When Word Wrap is ON:

- Text automatically moves to the next line.
- Easier to read.
- No horizontal scroll bar is displayed.

When Word Wrap is OFF:

- Text remains on a single line.
- A horizontal scroll bar is required to view long lines.

Example: A long paragraph is displayed across multiple lines according to screen width.

Font

Use: Changes the font, size, and style of text.

Font Options

Option	Use
Font Style	Regular, Bold, Italic, Bold Italic
Font Size	Increase or decrease text size
Font Name	Choose fonts such as Arial, Calibri, Times New Roman

Examples

- Making a heading bold.
 - Changing text size from 12 to 18.
 - Changing the font from Arial to Times New Roman.
-

VIEW MENU

The **View Menu** controls how text is displayed. It contains options such as Zoom In, Zoom Out, Restore Default Zoom, and Status Bar.

Zoom In (Ctrl + +)

Use: Makes text appear larger on the screen.

Example: Enlarging small text for easier reading.

Zoom Out (Ctrl + -)

Use: Makes text appear smaller.

Example: Reducing text size when it appears too large.

Restore Default Zoom (Ctrl + 0)

Use: Returns the zoom level to 100%.

Example: Restoring the normal view after zooming in or out several times.

Status Bar

Use: Displays or hides the Status Bar at the bottom of Notepad.

Information Displayed on the Status Bar

- Line Number
- Column Number
- Zoom Percentage (%)
- Text Encoding (UTF-8, etc.)

Example: If the cursor is at Line 10 and Column 5, the Status Bar displays **Ln 10, Col 5**.

Conclusion

Notepad is a simple text editor used for creating, editing, formatting, and saving text files. It is one of the most commonly used utilities in Microsoft Windows for basic text editing and programming tasks.
